Gas Supply Interruption at Murrin Murrin

The explosion and fire at Apache Energy's Varanus Island gas export facility has temporarily interrupted gas supply to Minara's Murrin Murrin operation. The duration of the disruption to supply is at this stage unknown.

Minara's Managing Director, Peter Johnston, said "we are working to reduce the impact of the interruption and are using the time opportunistically on plant maintenance."

He said Minara will continue to monitor the situation closely and advise the market when further information is available.
